EXPERIENCE

Wall Street Journal

Aug 2022-Present

Graphics Reporter

- Managed end-to-end design operations and graphics pipelines across 150+ published stories, directing project intake, timelines, and execution for 450+ visual assets.
- Partnered with over 100 reporters, editors, and cross-desk leaders to streamline request intake, manage resourcing, and translate complex datasets into high-impact digital narratives under tight deadlines.
- Oversee data graphics pipelines reaching 4.7M+ readers, establishing standard operating procedures for fast-turnaround visual summaries across 45+ bylines.
- Established key cross-functional partnerships across newsroom leadership as the sole Graphics team member awarded dedicated sports coverage bylines.
- Analyzed structured datasets under high-velocity deadline pressure, standardizing reporting templates and visual workflows across newsroom desks.

Maryland Institute College of Art

Jan 2024-Present

Graduate Capstone Advisor, Capstone faculty, Capstone Judge

- Managed and enabled graduate-level researchers through an 18-month capstone lifecycle, overseeing project scoping, milestone tracking, research design, and executive presentation delivery.
- Established structured milestone frameworks, delivery roadmaps, and review processes to keep complex data visualization projects on target from discovery to final defense.
- Recognized during final capstone defenses for exceptional advisory leadership and strategic impact on project management and delivery.

World Resources Institute

March 2020-Aug 2022

Data Visualization & Design Lead

- Led enterprise design operations and accessibility standards, establishing intake workflows and running training workshops that upskilled 500+ staff across global cross-functional teams.
- Partnered with program directors and senior leadership to scope, schedule, and execute interactive visual projects reaching 2M+ annual views.
- Directed visual execution across 12+ international programs, managing project roadmaps to ensure alignment with global strategic goals.

Gartner

March 2019-March 2020

Senior Graphic & Visualization Designer

- Designed comprehensive visual systems and digital assets across three major B2B software brands, unifying cross-functional brand storytelling.
- Supported multi-channel marketing campaigns, product design initiatives, and enterprise data visualization assets.

Previous Experience: **Booz Allen Hamilton**, Design & Visualization Specialist (2018-2019) | **Oceana**, Graphic Designer (2015-2018) | **NPR**, Design Contractor (2014) | Additional previous roles available on LinkedIn
